1.Institute Information

Dr. J. J. Magdum College of Engineering was established by Dr. J. J. Magdum Trust, Jaysingpur in the year 1992 with an objective to promote the cause of higher education. The institute is approved by All India Council of Technical Education (AICTE), New Delhi and Government of Maharashtra, affiliated to Shivaji University, Kolhapur. The college offers B. Tech program in Mechanical, Civil, Computer Science Engineering, Electronics & Tele-Communication, Information Technology and M. Tech program in Civil Engineering-Construction Management.

Our Management extends its fullest support in building the institution as a center of excellence with technically superior, ethically strong and competent engineers. The serene campus vibrant with aesthetic bliss in an exhilarating convenient location, well connected by road, rail and air is easily accessible. The eco-friendly ambience creates and bestows a healthy learning atmosphere.

The institution is meticulous with modern laboratory, workshop facilities and state of art computer center providing an excellent infrastructure.

The institution has spacious library with vast collection of Books, Newspapers, National & International Journals, Magazines, and Reference books, Encyclopaedia, World of science, ASM hand books and course materials. E-learning through NPTEL Video course by NIT and IIT Professors are available.

The Teaching and Non-Teaching Staff of the institute is a blend of senior experienced and young dynamic faculty members devoted to the noble cause of education. Qualified, experienced, versatile and efficient faculty members could the students diligently in ethical, moral and academic aspects.

We imparts technology based experiential learning through industry visits, live projects, expert talks, MOOC's, workshops, case studies, upscale labs, and virtual classroom sessions.

Industry-Institute interaction and real-time projects nurture and craft the budding engineers to bloom and flourish in the field with the prowess guidance in the campus. The college equips the students with the latest skills which make them employable and future ready.

Due to able and proper guidance and motivation, many of our students have topped at University. Our training and placement works meticulously to improve and develop life skills to the students and tries hard to seek good jobs for our students. In addition to the academics, the students are engaged in sports and cultural activities which help them to develop versatile personality. Various Club activities are conducted to encourage, motivate and inspire students from diverse culture to harness the talent through their perseverance.

The institute is having specious ground and the modern facilities for both indoor and outdoor games and ultra-modern Gymnasium. Due to proper guidance and motivation, many of our students have grabbed prizes at University level and different sport events.

We are committed to stakeholders for best results and produced more than 10000+ engineers getting campus placements.

2. Institute Vision & Mission

VISION

To be a Leading academic organization, creating skilled and Ethical Human Resources by leveraging Technical Education for Sustainable Development of Society.

MISSION

- To promote learn ability of all stakeholders
- To empower rural youth to be competent in technical education and imbibe ethical values.
- To contribute to local social and economic context, leading to satisfied stakeholders.

3. Department Vision & Mission

VISION

To lead in the IT discipline through value based education, innovation skills and industry oriented curriculum to prominent of professionals and societal concerns.

MISSION

- To inculcate teaching and learning process promoting industry practices in Information Technology engineering to address universal challenges
- To integrate research and entrepreneurshipskills to address present and future challenges of the society and IT industry.
- To encourage co- and extra-curricular activities for over-all personality development of the students.
- To provide outcome based education relative recent technology.
 - Beyond syllabus
 - Training section
 - Expert lecture
 - webinars

Program Educational Objectives (PEO's)

- To train students with good of knowledge in core areas of Information Technology and related engineering so as to analyse, design, and synthesize data and technical concepts.
- 2. To inculcate in students to maintain high professionalism and ethical standards, effective oral and written communication skills, to work as part of teams.
- 3. To provide our graduates with learning environment awareness of the life-long learning needed for a successful professional career and to introduce them to written ethical codes and guidelines, perform excellence, leadership and demonstrate good citizenship.
- 4. To provide students with academic environment that is aware of excellence, leadership, entrepreneurship, ethical responsibility and ability to work in multidisciplinary teams.
- 5. To train students with excellent scientific and engineering knowledge so as to understand, analyse, design and create products and solutions for Software engineering problems.

Program Outcomes (POs)

At the end of successful completion of program, the graduates will be able to,

- 1. **Engineering Knowledge**: Apply knowledge of mathematics, science, engineering Fundamentals and an engineering specialization to the solution of complex engineering problems.
- 2. **Problem Analysis**: Identify, formulate, research literature and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.
- 3. **Design/Development of Solutions**: Design solutions for complex engineering problems and design system components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal and environmental considerations.
- 4. **Conduct investigations** of complex problems using research-based knowledge and research methods including design of experiments, analysis and interpretation of data and synthesis of information to provide valid conclusions.
- 5. **Modern Tool Usage**: Create, select and apply appropriate techniques, resources and modern engineering and IT tools including prediction and modelling to complex engineering activities with an under-standing of the limitations.
- 6. **The Engineer and Society**: Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional engineering practice.
- 7. **Environment and Sustainability**: Understand and the impact of professional engineering solutions in societal and environmental contexts and demonstrates knowledge of and need for sustainable development.
- 8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of engineering practice.
- 9. **Individual and Teamwork**: Function effectively as in visual, and as a member or leader in diverse teams and in multidisciplinary settings.
- 10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations and give and receive clear instructions.
- 11. **Project Management and Finance**: Demonstrate knowledge and understanding of engineering and management principles and apply these too nods on work, as a member and leader instead, to manage projects and in multidisciplinary environments.
 - 12. **Lifelong Learning**: Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological

Program Specific Outcomes (PSO)

- 1. To design and implement solutions for network security, database security and software quality as per industry standards
- 2. To design and implement various services for operating systems, compiler libraries and programming applications

3. To enhance the management skills and organizational behaviour in IT industry

4. Students role and Responsibilities

Code of Conduct:-

- Every student must carry his/her identity card while being present on the College Premises.
- Use of Cell phones is strictly prohibited during class/Labs hour.
- Without the permission of the Principal, Students are not allowed to circulate any printed materials within the college campus.
- Every student is expected to maintain the general cleanliness within the classrooms, laboratories and the campus in general.
- Students should handle the college properties with care. Damage to the furniture or any other materials may lead to penalty or suspension from the college.
- Intoxication or possession of narcotics and other dangerous material is strictly prohibited.
- Playing cards, spitting and loitering are strictly prohibited inside the college campus and shall invite severe punishment/disciplinary action
- Attempted or actual theft of and/or damage to property of the College, or property of a
 member of the College community, or other personal or public property, on or off
 campus will be considered as a punishable act.
- Every student will remain answerable to the college authority for his/her activity and conduct on the College Premises.
- Any act which obstructs teaching, research, administrative activity and other proceedings of the college is strictly prohibited.
- Indulging ragging, anti-institutional, anti-national, antisocial, communal, immoral or political expressions and activities within the Campus and hostel are strongly prohibited as well as punishable.
- Students are required to check the Notice Board and also website of the college for important announcements.

5. Laboratory and Classroom Instructions

Classroom Instructions:-

- Students should know and obey rules and regulations of department as well as college.
- Students strive to meet Academic Expectations
- Students are expected to take all tests at the scheduled times seriously.
- Maintain discipline in the class
- A student should maintain at least 75% attendance in the Lectures of every subject and 100% overall performance. Otherwise, he or she will be debarred from the University Examination.
- Latecomers will not be entertained to enter into the classroom.
- Participate in the activities organized in the Department as well as in the College.
- While discussion, students should conduct and express themselves in a way that is respectful of all persons.
- Develop positive attitudes;
- Be cooperative and considerate.
- Welcome challenges.
- Be helpful to others
- Be kind, polite, and courteous to others
- Do the assigned work on time
- Be prepared for classes with all necessary supplies.
- Be Respectful and Punctual
- Be in the best of behaviours

Computer Laboratory Instructions:

- Students must present a valid ID card before entering the computer lab.
- Remove your shoes/chapels/sandals outside the lab.
- Playing of games on computer in the lab is strictly prohibited.
- Before leaving the lab, students must close all programs positively and keep the desktop blank.
- Students are strictly prohibited from modifying or deleting any important files and install any software or settings in the computer without permission
- Based on the prime priority, users may be requested by the lab in-charge, to leave the workstation any time and the compliance is a must.
- Eating and/or drinking inside the computer lab are strictly prohibited.
- Internet facility is only for educational/ study purpose.
- Silence must be maintained in the lab at all times.
- The lab must be kept clean and tidy at all times.
- If any problem arises, please bring the same to the notice of lab in-charge.

- No bags/ hand bags/ rain coats/ casual wears will be allowed inside the computer lab, however note book may be allowed.
- Lab timing will be as per the academic time table of different classes
- Every user must make an entry in the Computer Lab Register properly.
- Each student or visitor must take mobile phones in "Switched Off" mode while entering and or working in Computer Lab.
- Conversation, discussion, loud talking & sleeping are strictly prohibited.
- Users must turn-off the computer before leaving the computer lab.
- Maintain silence in lab.
- Computer Lab Assistants are available to assist with BASIC computer and software problems.
- Food and drink are not permitted in the computer lab.
- The use of cell phones is prohibited in the computer lab.
- Please take your calls outside. We also ask that you put your cell phone on vibrate mode.
- Unauthorized copying and/or installing of unauthorized software is not permitted
- Tampering with the hardware or software settings will not be tolerated.
- Students found Internet surfing or chatting for personal reasons may be asked to leave. Preference is given to students doing course work over those engaged in personal computer use.
- Personal files are not to be stored on the local drive C. Students are responsible for providing their own means of digital storage. All lab computers are set up to remove any data stored or any programs installed by users.

6. **Department Academic Planner** Academic Planner 2024-25 (Semester I)

| Sr No | Activity | Planned Date |
|-------|---|--|
| 1 | Commencement of Semester I | 1st of July 2024 |
| 2 | Load Distribution | |
| 3 | Time table | |
| 4 | Commencement of Theory lectures for SY / TY / Final Year | 1st of July 2024 |
| 5 | a. Course Outline by individual faculty b. Distribution of Academic Diary c. Lecture Plan duly signed by HoD d. Department Academic Planner Submission | |
| 6 | DRC meeting for Synopsis approval | 22 July 2024 |
| 7 | Alumni Talk | 20 th August 2024 |
| 8 | CMC Meeting 1 (TY & B.Tech) | 29th to 31 st July |
| 9 | Expert Lecture (SY students)- | |
| 10 | Academic Audit for AY 2023-24 | |
| 11 | CIE – I for SY / TY/ Final Year | 16 th – 17 th August |
| 12 | Community Service activity | 14 th August |
| 13 | TPC training (TY & B.Tech | 21st To 25th Aug |
| 14 | Mid Semester Student Feedback - I | 19 th August 2024 |
| 15 | CMC Meeting 2 (TY & B.Tech) | 29th to 31st Aug |
| 16 | R&D Synopsys Presentation | 27 th August |
| 17 | Guest lecture under Competitive exam- | 28 th August |
| 18 | Industrial Visit (SY)- | August 29 th |
| 19 | FDP | 31 st August |
| 20 | Value Added courses under IQAC | 30 th August |
| 21 | Phase-I First Assessment of Project Work | |
| 22 | Community Service | 3 th September |
| 23 | Guest lecture under higher studies | 5th September |
| 24 | Augmentation Technical Workshop | 9 th Sept |

| 25 | Industrial Visit (TY)- | 10 th Sept |
|----|--|--|
| 26 | Expert Lecture (Btech students)- | 19 th September |
| 27 | Project Progress Presentation I | 21 st Sept |
| 28 | CMC Meeting 3 TY & B.Tech | 29th to 30st Sept |
| 29 | Community Service | 25 th September |
| 30 | Augmentation Cell Technical event | 9 th Sept |
| 31 | Departmental Academic Advisory Board (DAB) Meet. | |
| 32 | VAP SY | 28 th September |
| 33 | CIE – II SY / TY/ Final Year | 30 th Sep–1 st Oct |
| 34 | End-term Feedback(SY, TY & B.Tech)- | 2 nd Oct 2024 |
| 35 | Expert Lecture (TY students)- | 10 th October 2024 |
| 36 | Industrial Visit (BTech)- | 10 th Oct 2024 |
| 37 | Summative feedback | |
| 38 | Project Progress Presentation II | 14 th October 2024 |
| 39 | Parents Meet (SY,TY,BE) | 18 th October 2024 |
| 40 | End of Th/Pr for TY/Final Year | 11 th October 2024 |
| 41 | Final submission for TY/Final Year | Second Week of October |
| 42 | Academic Audit (Semester I) | |
| 43 | End Semester Student Feedback - II | |
| 44 | End of Th/Pr for TY/Final Year | |
| 45 | Final submission for | |
| | TY/Final Year | |
| 46 | SUK theory examination | |
| 47 | End of Semester I | |

| Unit Wise Quiz | After Completion Of Each Unit |
|---------------------------------------|---|
| Proctor Report | Report at twice in a Month |
| CMC | End of month |
| Training and Placement Activity | Two lectures on working Saturday for S.Y. and T.Y. of all branches |
| Higher Studies Cell Activity | Per Semester two Sessions |
| Entrepreneurship Cell activity | One Lecture per month per department preferably on first or third Saturday (Max. two lectures per semester) |
| Competitive Examination Cell Activity | Two Sessions per month |
| Industrial visit faculty | One day per month or 3 days per semester |

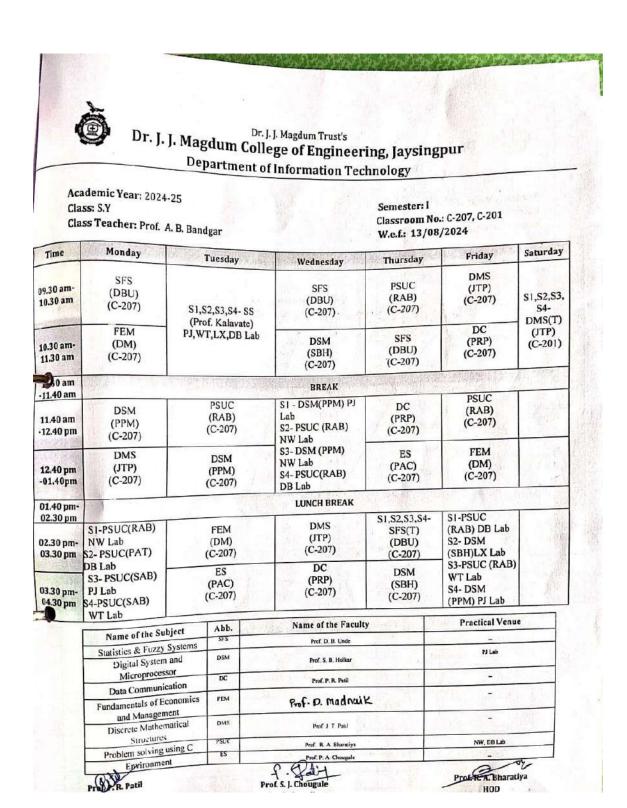

| Academic Activities |

CIE- Continuous Internal Evaluation ESE – End Semester Examination

- Candidate contact hours per week: 30 Hours(Minimum)
 Total Marks for S.E. Sem III & IV: 800 + 900 = 1700
- Theory and Practical Lectures: 60 Minutes Each
 Total Credits for S.E. Sem III & IV: 50 (SEM-I: 25 + SEM II:25)
- In theory examination there will be a passing based on separate head of passing for examination of CIE and ESE
 There shall be separate passing for theory and practical (term work)courses.

Note:

- 1. BSC-IT: Basic Science Course Information Technology are compulsory.
- 2. ESC-IT: Engineering Science Course Information Technology are compulsory.
- 3. PCC-IT: Professional Core Course Information Technology are compulsory.
- MC-EV: Mandatory Course Environmental Studies which is compulsory for theory 70 marks and project work30 marks.

Semester-III

| Sl. No | Code No. | Subject | Semester | Credits |
|--------|------------|--|----------|---------|
| 1. | BSC-IT301 | Statistics & Fuzzy Systems | 3 | 4 |
| 2. | PCC- IT302 | Digital System and Microprocessor | 3 | 5 |
| 3. | PCC- IT303 | Data Communication | 3 | 3 |
| 4. | PCC- IT304 | Fundamentals of Economics and Management | 3 | 3 |
| 5. | PCC-IT 305 | Discrete Mathematical Structures | 3 | 4 |
| Ó. | PCC- IT306 | Problem solving using C | 3 | 5 |
| 7. | PW-IT307 | Soft Skills | 3 | 1 |

Semester -IV

| Sl. No | Code No. | Subject | Semester | Credits | |
|--------|------------|--|----------|---------|--|
| 1. | PCC- IT401 | Computer Network | 4 | 4 | |
| 2. | PCC-IT402 | Computer Organization and Architecture | 4 | 3 | |
| 3. | PCC-IT403 | Data Structures | 4 | 3 | |
| 4. | PCC-IT404 | Theory of computation | 4 | 4 | |
| 5. | PCC-IT405 | Software Engineering | 4 | 3 | |
| 6. | PCC- IT406 | Object Oriented Programming | 4 | 4 | |
| 7. | PW-IT407 | Mini Project | 4 | 1 | |
| 8. | MC-IT408 | Environmental Studies | 4 | 3 | |

CIE- Continuous Internal Evaluation

ESE - End Semester Examination

| Candidate contact hours per week : 30 Hours (Minimum) | • Total Marks for B.E. Sem VII & VIII: 800 + 800 = 1600 | | | | | |
|---|---|--|--|--|--|--|
| Theory and Practical Lectures : 60 Minutes Each | Total Credits for B.E. Sem VII & VIII : 50 (SEM-I: 25, WI + SEM – | | | | | |
| | II: 25) | | | | | |
| In theory examination there will be a passing based on separate head of passing for examination of CIE and ESE. | | | | | | |
| There shall be separate passing for theory and practical (term work) courses. | | | | | | |

Note:

- 1. PCC-IT: Professional Core Course Information Technology are compulsory.
- 2. PCE-IT: Professional Core Elective Information Technology are compulsory.
- 3. MC-IT: Mandatory Course-Information Technology are compulsory.
- 4. SI-IT: Summer Internship- Information Technology are compulsory.
- 5. PW-IT: Project Work- Information Technology are compulsory

Semester -VII

9.Subject Details

SYIT

Subject: Digital System and Microprocessor

| Chapter No. | Lect No. | Details of syllabus planned |
|----------------|-------------|---|
| | | Fundamental of Digital System |
| | 01 | Analog and digital systems, representation of signed numbers, |
| Ch.1 | 02 | 2's complement arithmetic, BCD addition & subtraction, |
| | 03 | octal &Hexadecimal addition and subtraction, |
| | 04 | Derived gates. |
| | | Boolean algebra & combinational logic design |
| | 5 | Reduction of Boolean expressions, Boolean function representation, expansion of Boolean |
| | 6 | expression (standard SOP & POS), |
| | 7 | simplification of Boolean expressions using K-map(up to 5 variable), |
| Ch 2 | 8 | Multiplexer, implementation of expression using MUX, |
| | 9 | Demultiplexer, decoder(74138), |
| | 10 | BCD to 7 segment decoder. |
| | 11 | Reduction of Boolean expressions, Boolean function representation, expansion of Boolean |
| | | Sequential Logic Design |
| | 12 | Classification, Flip-Flops(S-R, J-K, T, D) using gates, |
| | 13 | Race around condition Master-Slave JK |
| Ch3 | 14 | Flip Flop, Counters (Asynchronous & Synchronous), Design examples, |
| | 15 | Shift registers, |
| | 16 | Excitation table. |
| | 17 | Shift registers, |
| | | 8085 Microprocessor Architecture & Memory Interfacing |
| | 18 | The 8085 MPU, Microprocessor communication and bus timing, |
| Ch 4 | 19 | De-multiplexing address and Data bus, Generating control signals, |
| | 20 | The 8085 Architecture , op-code fetch machine cycle, |
| | 21 | Memory read and writes machine cycle. |
| | 22 | Memory interfacing-memory structure, |

| | 23 | Memory interfacing & address decoding | | | | | | |
|------|---|--|--|--|--|--|--|--|
| | | 8085 Programming techniques | | | | | | |
| | 24 | 8085 instruction groups, addressing modes writing and | | | | | | |
| | 25 | Execution assembly language program, | | | | | | |
| Ch 5 | 26 | counters & delays, | | | | | | |
| Cn 5 | 27 | stack, Instruction related to stack execution of CALL and RET, | | | | | | |
| | 28 | The 8085 interrupt, RST instructions, | | | | | | |
| | 29 | vectored interrupts, | | | | | | |
| | 30 | RIM and SIM | | | | | | |
| | Interfacing I/O devices &Introduction 8086: | | | | | | | |
| | 31 | Basic interfacing concepts, | | | | | | |
| | 32 | peripherals i/o instructions | | | | | | |
| Ch6 | 33 | IN, OUT, I/ O execution, | | | | | | |
| | 34 | Memory mapped I/O, | | | | | | |
| | 35 | I/O mapped I/O, | | | | | | |
| | 36 | Architecture of 8086. | | | | | | |

Experiment List

| Exp. No. | Name of Experiment | Nature of Experiment | COs |
|-------------|---|----------------------|-----|
| 01 | To Convert Different number form. | Non- Performing | CO1 |
| 02 | To study and verify the truth table of basic gates. | Performing | CO2 |
| 03 | To study and verify universal gate. | Performing | CO2 |
| 04 | To study and verify Boolean algebra &De Morgan's theorem. | Performing | CO2 |
| 05 | To study half and full adder. | Performing | CO2 |
| 06 | To study half and full subtractor. | Performing | CO2 |
| 07 | To study the MUX and DEMUX. | Performing | CO2 |
| 08 | To study the R-S and J-K flip flop. | Performing | CO2 |
| 09 | To study the 8085 microprocessor. | Non- Performing | CO3 |
| 10 | WAP to perform 8 bit addition & subtraction. | Performing | CO4 |
| 11 | WAP to perform transfer a data block without overlap using 8085 | Performing | CO4 |

| 12 | WAP to perform block exchange | Performing | CO4 |
|----|-------------------------------|------------|-----|
| 13 | WAP to perform multiplication | Performing | CO4 |
| 14 | WAP to perform largest number | Performing | CO4 |

Subject: Data Communication

| Chapter No | No. of Lecture | Topics to be covered in each Lecture |
|---------------|-------------------|---|
| 1 | 1 | Data Communication–Definition, Components |
| | 2 | Data representation, Data Flow |
| | 3 | Networks – Definition, Uses |
| | 4 | Topologies, Categories |
| | 5 | Internet–History, ISP hierarchy |
| | 6 | Protocols & Standards–Protocols, Standards, Standards Organizations |
| 2 | 7 | Analog and Digital Data |
| | 8 | Analog and Digital Signals |
| | 9 | Transmission Impairments |
| | 10 | Data ratelimits |
| | 11 | Performance |
| 3 | 12 | Digital to digital conversion |

| | 13 | Block coding |
|---|----|--|
| | 14 | Scrambling |
| | 15 | Analog to digital conversion |
| | 16 | Pulse code modulation |
| | 17 | ASK,FSK |
| | 18 | PSK and AM |
| | 19 | FM,PM |
| | 20 | Delta modulation |
| 4 | 23 | Parallel and serial transmission |
| | 24 | Asynchronous and synchronous transmission |
| | 25 | Multiplexing |
| | 26 | Wavelength, time division |
| | 27 | Switching-circuit switched, packet switched and message switched |
| | 28 | Structure of switches |
| 5 | 29 | Layered architecture |
| | 30 | OSI reference model |
| | 31 | TCP/IP model |
| | 32 | ATM model |
| | 33 | Physical port |
| | 34 | Logical port |
| 6 | 35 | Twisted pair cable |
| | 36 | Coaxial and OFC |
| | 37 | Propagation modes |
| | 38 | Radio waves, microwave, infrared |
| | 39 | Cabling, connectors |
| | 40 | NIC, repeaters |
| | 41 | Hub, switches, bridges |
| | 42 | Routers and gateways |

Subject: Fundamentals of Economics and Management

| Ch. No. | Lect No. | Details of syllabus planned |
|---------|-------------|---|
| | | Introduction to Economics |
| | 01 | Definitions,ScopeofEconomics(Micro,Macro,InternationalIndustrial) |
| | 02 | Scope of Economics(Environmental, Public Finance, Managerial Economics) |
| | 03 | Managerial Economics meaning definition and decision making process |
| Ch.1 | 04 | Economic Resources |
| | 05 | Types offirm |
| | 06 | Goods and Services |
| | 07 | Utility |
| | 08 | Value and Wealth |
| | | Demand and Supply Analysis |
| | 09 | Meaning of Demand, Types |
| | 10 | Determinants, Demand Function |
| Ch.2 | 11 | Law of Demand |
| Cn.2 | 12 | Elasticity of demand supply |
| | 13 | Determinants |
| | 14 | Supply function and elasticity of supply |
| | | Basic Cost Concepts |
| | 15 | Production function, law of variable proportions |
| | 16 | turns to scale, production optimization and uses of production function |
| Ch.3 | 17 | Cost concepts and its types |
| | 18 | Short run and long run costs |
| | 19 | Total, fixed and variable |
| | 20 | Marginal average, opportunity cost |
| Ch4 | | Market |
| | 21 | Meaning of market, types |
| | 22 | Perfect competition |
| | 23 | Monopoly |
| | 24 | Oligopoly and monopolistic competition |
| Ch. 5 | | Principles of Management |
| | 25 | Nature and importance of management |
| | 26 | Levels of management |

| | 27 | Fundamental managerial skills |
|-------|----|--|
| | 28 | Functions of management |
| | 29 | Henry Fayol's principles of management |
| | 30 | Henry Fayol's principles of management |
| | 31 | Motivation theory: X and Y |
| | 32 | Motivation theory: X and Y |
| Ch. 6 | | Basic Financial Concepts |
| | 33 | Business |
| | 34 | Capital |
| | 35 | Assets |
| | 36 | Liabilities |
| | 37 | Interest |
| | 38 | Profit and Loss |
| | 39 | Balance sheet and related concepts |
| | 40 | Profit loss statement and related concepts |

Assignments

| Chapter | Questions |
|---------|--|
| No. | Questions |
| 1 | 1. Define the term Economics and explain economic concepts deal with Public |
| | finance. 8 |
| | 2. Define the term Economics and explain the concept of Public finance. 8 |
| | 3. Explain in brief Public Finance. 8 |
| | 4. Explain Economics and explain scope of economics. 8 |
| | 5. Explain different sources of finance. 8 |
| | 6. Explain in brief types of business firms. 8 |
| | 7. Explain the terms Goods, Services, Utility and Value with example. 8 |
| | 8. Write short note on Marginal Economics. 6 |
| | 9. Write short note on Micro and Macro Economics. 6 |
| | 10. Write short note on Distinguish between Micro and Macro Economics. 6 |
| | 11. Write short note on Define the terms Goods, Services, Utility, Value and |
| | Wealth. 6 |
| 2 | 1. Explain various determinants of Demand.8 |
| | 2. Define the term Demand and explain its types.8 |
| | 3. Explain the concept of 'Elasticity of Demand'. 8 |
| | 4. Explain different types of Demand. 8 |
| | 5. Write short note on Law of Demand and Law of Supply. 6 |
| | 6. Write short note on Determinants of Supply. 6 |
| | 7. Write short note on Price Elasticity of Demand.6 |
| 3 | 1. Explain different types of Cost. 8 |
| | 2. Define the term Cost and explain its types. 8 |
| | 3. Explain Determinants of Cost. 8 |
| | 4. What is Production Function? Explain different Laws of Production. 8 |
| | 5. Write short note on Law of Variable proportions. 6 |
| | 6. Explain Return to Scale. 8 |

| | 7. Explain Law of Variable Proportion with example. 8 |
|---|--|
| | 8. Write short note on Production Optimization. 6 |
| | 9. Write short note on Explain Marginal and Opportunity cost.6 |
| 4 | 1. Define the term Market. Explain Monopoly and Oligopoly Market. 8 |
| | 2. Differentiate between Monopoly and Oligopoly Market.6 |
| | 3. Write short note on Market. 6 |
| | 4. Write short note on Differentiate between Perfect and Monopolistic |
| | Competition. 6 |
| | 5. State characteristics of perfect competition. 8 |
| 5 | 1. Define the term Management and explain functions of Management. 8 |
| | 2. Explain Functions of Management.8 |
| | 3. Explain Nature and Importance of management. |
| | 4. Define the term Management and explain its importance. 8 |
| | 5. Explain different skills required by Manager. 8 |
| | 6. Explain Theory X and Theory Y of Motivation. 8 |
| | 7. Define the term Motivation and Explain Theory X and Theory Y of |
| | Motivation.8 |
| | 8. Explain importance of Management. 8 |
| | 9. Explain Henry Fayol's principles of Management. 8 |
| | 10. Write short note on Level of Management. 6 |
| | 11. Write short note on Fundamental of Managerial skill.6 |
| 6 | 1. Explain the concept of Profit and Loss account with example. 8 |
| | 2. Explain the concept of 'Profit and Loss Statement' with its format. 8 |
| | 3. Explain following terms |
| | i) Business |
| | ii) Capital |
| | iii) Liability |
| | 4. Explain the terms Business, Assets, Liabilities, Interest, Profit and Loss. 8 |
| | 5. Write short note on Explain the terms Profit, Loss and Interest. 6 |
| | 6. Explain the concept Of Balance Sheet with example.8 |
| | 7. Write short note on Explain the terms Business, Assets and Liabilities. 6 |
| | 8. Write short note on Balance Sheet.6 |

1. Fundamentals of Engineering Economics by PravinKumar, Wiley India Ltd.

Subject: Discrete Mathematical Structures

| Lect No. | Ch.No. | Details of syllabus planned |
|----------|----------|--|
| 1 | | Statement and Notation, logical connectives, |
| 2 | 1 | truth tables, tautologies, |
| 3 | _ 1 | principle of duality, |
| 4 | - | well formed formulas, |
| 5 | <u>-</u> | logical equivalences, |
| 6 | - | Inference of Theory for statement Calculus. |
| 7 | | Set, Definition |
| 8 | _ | Different of types of sets, |
| 9 | 2 | Operations on sets |
| 10 | - | Venn Diagrams, |
| 11 | - | Ordered Pairs, |
| 12 | - | Cartesian product of two sets, |
| 13 | - | Principle of Inclusion and exclusion. |
| 14 | | Definition, types of relation, |
| 15 | - | composition of relations, |
| 16 | | domain and range of a relation, |
| 17 | 3 | Equivalence Relations and partitioning, |
| 18 | | Partial ordering |
| 19 | | relations, Hasse Diagrams, |
| 20 | - | Introduction to Lattices. |
| 21 | | Definition of function, |
| 22 | .4 | types of function |
| 23 | | composition of functions Recursively defined functions. |
| 25 | | Algebraic Systems, |
| 26 | - | Semi Groups, |
| | | |
| 27 | 5 | Groups, Monoid, |
| 28 | 1 | Abelian Groups, |
| 29 | | subgroups, Isomorphism |

| 30 | | Automorphisms, |
|----|----|---------------------------------|
| 31 | | Homomorphism |
| 32 | | Normal Subgroups., |
| 33 | | Basic Terminology |
| 34 | | Multi graph and weighted graphs |
| 35 | .6 | Diagraphs andrelations |
| 36 | | Representation of graphs |
| 37 | | Paths and circuits |
| 38 | | Eulerian |
| 39 | | Hamiltonian Paths and Circuits |
| 40 | | Graph Coloring. |

Recommended Books:

Text book

- 1. Mathematical Structures with Application to Computer Science J. P. Tremblay & R. Manohar, MGH International Edition.
- 2. Elements of Discrete Mathematics- C. L. Liu and D. P. Mohapatra,,4 Edition McGraw-Hill.

Reference Book

- 1. Discrete Mathematics Semyour Lipschutz, Marc Lipson (MGH), Schaum' Outline Series
- 2. Discrete mathematics and its applications Kenneth H. Rosen (AT&T Bell Labs)
- 3. DiscreteMathematics With Proof, 2nd Ed, ERIC GOSSETT, Wiley India Ltd.

Subject: Problem solving using C

| Ch. No | Lect. No. | Details of Syllabus Planned |
|-----------|-----------|--|
| | | Introduction |
| | | The meaning of algorithms, Flowcharts, Pseudo codes, Writing algorithms and |
| 01 | 1 | drawing flowcharts for simple exercises |
| | 2 | Memory concepts, C Program development environment |
| | 3 | Types of problems, problems solving with computers difficulties with problem solving |
| | 4 | Problem Solving Aspects, Problem Solving Concepts for computer |

| | 5 | Programming Concepts – communicating with computers |
|----|---|---|
| | 6 | organizing the problem, using the tools, Top down design |
| | | Introduction to 'C' Language |
| | 1 | Importance of 'C' Language, |
| | 2 | Sample 'C' Program, Structure of 'C' Program |
| 02 | 3 | Constants, variables and data types |
| | 4 | Operators and expressions |
| | 5 | Managing input / output operations, |
| | 6 | Control statements |
| | | Functions |
| | 1 | Need for user defined functions |
| 03 | 2 | elements of User defined functions |
| | 3 | Defining, functions, |
| | 4 | return values and their types |
| | 5 | function calls, function declaration |
| | 6 | Methods of parameter passing, user defined and library functions. |
| | | Arrays and Strings |
| | 1 | The meaning of an array, one dimensional and two dimensional arrays |
| | 2 | Declaration and initialization of arrays, |
| | 3 | reading writing and manipulation of above types of Arrays, multidimensional arrays. |
| | 4 | Declaring and initialing string variables, reading string from terminal, |
| 04 | 5 | writing string to screen, arithmetic operations on characters |
| | 6 | putting strings together |
| | 7 | comparison of two strings, string handling functions |
| | 8 | , string handling functions |
| | | Structures and Pointers |
| 05 | 1 | Defining a structure, declaring structure variables, accessing structure members, |
| | 2 | structure initialization, copying and comparing structure variables, operations on individual members |
| | 3 | array of structures, structures and functions, Unions. Understanding pointers, |
| | 4 | accessing the address space of a variable, declaring and initialization pointer |
| | | pointer |

| | 6 | pointer expressions, |
|----|---|---------------------------------------|
| | 7 | pointers and arrays, |
| | 8 | pointer and characterstrings |
| | | File I/O |
| | 1 | FileI/O,StandardCvs.UnixFileI/O |
| | 2 | Streams and Files, File System Basics |
| 06 | 3 | fread()and fwrite(), fseek() |
| | 4 | fprintf() and fscanf() |
| | 5 | Random-Access I/O |
| | 6 | The Standard Streams |

Assignments

Assignments no.1

- 1. What are the features of the C language?
- 2. What is the use of printf() and scanf() functions?
- 3. Whatare the loops in C explain in detail.

Assignments no.2

- 1. What is recursion in C?
- 2. Explain what is variable with example?
- 3. How many keywords are there in C write their names?
- 4. What is a pointer in C?

Assignments no.3

- 1. What are operators in C?
- 2. What is a string in C explain with example?
- 3. What is the memory leak in C?
- 4. What is double pointer in C?

Assignments no.4

- 1. What are data types in C?
- 2. Explain Structure and union with example?
- 3. Explain array with example?

Assignments no.5

- 1. What is call by valve and call by reference.
- 2. Explain structure and union in details.

Experiment List

| Sr. No. | Exp. No. | Experiment Title | CO |
|------------|-------------|--|-----|
| 1 | 1 | Write a program using basic data types, scanf, printf, format specifiers. | 1,2 |
| 2 | 2 | Apply and write a program on conditional control statements if-else, Switch-case, break. | |
| 3 | 3 | Design a program using looping constructs while, do-while and for loops. | 1,2 |
| 4 | 4 | Write a program on Finding biggest of three numbers. | 3,4 |
| 5 | 5 | Write a program to find roots of given quadratic equation. | 3,4 |
| 6 | 6 | Write a program to find square of a number using function. | 3,4 |
| 7 | 7 | Write a program Char to number conversion. | 3,4 |
| 8 | 8 | Write a program to swap two numbers using functions (call by value). | 3,4 |
| 9 | 9 | Write a program to swap two numbers using functions (call by reference). | 3,4 |
| 10 | 10 | Write a program to factorial of a given number using recursion. | 3,4 |
| 11 | 11 | Write a program to find Fibonacci series. | 3,4 |
| 12 | 12 | Write a program for reverse of digit. | 3,4 |
| 13 | 13 | Write a program for find minimum and maximum in a list. | 3,4 |
| 14 | 14 | Write a program to print information of student using structure. | 3,4 |

Recommended Books:

Text Books:

- 3. Modern Operating Systems by Andrew S. Tanenbaum (Pearson EducationInternational)

Subject: Database Engineering

| Chapter | No. of | Topics to be covered in each Lecture |
|---------|---------|---|
| No | Lecture | |
| | 1 | Purpose of Database Systems, |
| | 2 | View of Data, Data Models, |
| 1 | 3 | Database Users and Administrators, |
| 1 | 4 | Overall System Design, Entity Relationship Model- Basic Concepts, |
| | 5 | Constraints, Keys, E-R Diagram, Weak Entity Sets, |
| | 6 | Reducing E-R Diagrams to Tables. |
| | 7 | Structure of Relational Databases, |
| | 8 | Relational Algebra, |
| | 9 | Structured Query Language (SQL), |
| 2 | 10 | PL/SQL- |
| | 11 | Stored Procedures, |
| | 12 | Functions |
| | 13 | trigger |

| | 14 | cursor |
|---|----|--|
| | 16 | Domain Constraints |
| 2 | 17 | Referential Integrity |
| 3 | 18 | Functional Dependencies |
| | 19 | Closure of set of Functional Dependencies |
| 4 | 20 | Physical storage media |
| | 21 | Storage access |
| | 22 | Organization of Records in Files |
| | 23 | Data Dictionary Storage |
| | 24 | Indexing and Hashing: Basic Concepts |
| | 25 | Transaction concept, Transaction state |
| | 26 | Concurrent Executions, Serializability |
| | 27 | Recoverability, Testing for Serializability |
| 5 | 28 | Lock-Based Protocols, Graph based Protocols |
| | 29 | Time- Stamp Based Protocols |
| | 30 | Validation based protocols, |
| | 31 | Failure Classification, Recovery and Atomicity |
| | 32 | Log-Based Recovery, Checkpoints. |
| | 33 | Access Control |
| 6 | 34 | Discretionary Access Control |
| U | 35 | Mandatory access control |
| | 36 | Database Security |

Experiment List

| Expt No. | Title of Experiment | Nature of Experiment | СО |
|-------------|--|----------------------|---------|
| 1 | Draw an E-R Diagram for any organization. | Non- Performing | CO1,CO2 |
| 2 | Implementation of DDL Queries to create, alter (add, modify, rename, drop) & drop table. | Performing | CO1,CO2 |
| 3 | Implementation of DML Queries to insert, deletes, updates & display records of the tables. | Performing | CO1,CO2 |
| 4 | Implementation of integrity constraints like primary key, check, not null and unique. | Performing | CO1,CO2 |
| 5 | Implementation of referential integrity constraints with foreign key, on delete cascade and on delete set null. | Performing | CO1,CO2 |
| 6 | Implementation of set operations like union, intersections & set difference. | Performing | CO1,CO2 |
| 7 | Implementation of Join Operations like cross join, self join, inner join, natural join, left outer join, right outer join and full | Performing | CO2,CO3 |

| | outer join. | | |
|----|---|------------|---------|
| 8 | Implementation of Aggregate functions like min, max, avg, sum | Performing | CO2,CO3 |
| | & count. Also use group by, having clauses | | |
| 9 | Implementation of String operations. | Performing | CO2,CO3 |
| 10 | Implementation of views for any created table. | Performing | CO2,CO3 |
| 11 | Implement JDBC connectivity | Performing | CO2,CO3 |

List of Recommended Books

Subject: Computer Algorithm

| Chapter | No. of | Topics to be covered in each Lecture |
|---------|---------|---|
| No | Lecture | |
| 1 | 1 | What is algorithm |
| | 2 | Algorithm Specification, Recurrence relations |
| | 3 | Performance Analysis? |
| | 4 | Randomized Algorithms. |
| 2 | 5 | Divide and Conquer-The general method |
| | 6 | Binary search |
| | 7 | finding the maximum and minimum |
| | 8 | Merge sort, Quick sort |
| | 9 | Selection sort |
| | 10 | analysis of these algorithms. |
| 3 | 11 | The general method, Knapsack problem |
| | 12 | Job sequencing with deadlines |
| | 15 | minimum-cost spanning trees – Prim's and Kruskal's Algorithms |
| | 16 | Optimal storage on tapes |
| | 17 | Optimal merge patterns |
| | 18 | Single source shortest paths. |
| 4 | 19 | The general method, Multistage graphs |

| | 20 | All main all autoat moths |
|---|----|--|
| | 20 | All pair shortest paths |
| | 21 | Optimal binary search trees, |
| | 22 | 0/1 knapsack |
| | 23 | Reliability design, |
| | 24 | Traveling Sales person problem. |
| 5 | 25 | Techniques for Binary Trees |
| | 26 | Techniques for Graphs – Breadth First Search& Traversal, |
| | 27 | Depth First Search & Traversal, |
| | 28 | Connected components and Spanning Trees |
| | 29 | Bi-connected components And depth first search |
| 6 | 30 | Backtracking: The general method, 8-queen problem |
| | 31 | sum of subsets, |
| | 32 | Knapsack Problem |
| | 33 | Hamiltonian Cycle |
| | 34 | Graph Coloring |
| | 35 | NP Hard and NP Complete Problems |
| | 36 | Basic Concepts, |
| | 38 | Introduction to NP Hard Graph Problems. |

Assignment

Assignment 1

- 1) Explain what is an algorithm in computing?
- 2) Explain what is Quick Sort algorithm?
- 3) Explain what is time complexity of Algorithm?
- 4) Mention what are the types of Notation used for Time Complexity?

Assignment No.2

- 1) Explain how binary search works?
- 2) Explain whether it is possible to use binary search for linked lists?
- 3) Explain how to find whether the linked list has a loop?
- 4) Explain what is the difference between best case scenario and worst case scenario of an algorithm?
- 5) Assignment No.3
- 6) Qu. 1) Solving Recurrences
- 7) Give asymptotic upper and lower bounds for T(n) in each of the following recurrences. Assume that T(n) is constant for $n \le 2$. Make your bounds as tight as possible, and justify your answers.
- 8) (a) T(n) = 4T(n/4) + 5n
- 9) (b) T(n) = 4T(n/5) + 5n
- 10) (c) T(n) = 5T(n/4) + 4n
- 11) (d) T(n) = 25T(n/5) + n2
- 12) (e) $T(n) = 4T(n/5) + \lg n$

- 13) (f) $T(n) = 4T(n/5) + \lg 5 \ n \ \sqrt{n}$
- 14) (g) $T(n) = 4T(\sqrt{n}) + \lg 5 n$
- 15) (h) $T(n) = 4T(\sqrt{n}) + \lg 2 n \sqrt{n}$
- 16) (i) T(n) = T(n) + 5 (j) T(n) = T(n/2) + 2T(n/5) + T(n/10) + 4n
- 17)
- 18) Qu. 2) Asymptotic Growth
- 19) Sort all the functions below in increasing order of asymptotic (big-O) growth. If some have the same asymptotic growth, then be sure to indicate that. As usual, lg means base 2.
- 20) 5n
- 21) 4 lg n
- 22) 4 lglg n
- 23) n4 5. n1/2 lg4 n (lg n)
- 24) n 5n

Assignment No.4

- 1) Explain what is a recursive algorithm?
- 2) Mention what are the three laws of recursion algorithm?
- 3) Explain what is Quick sort algorithm?
- 4) Explain with example what is Selection sort algorithm?

Assignment No.5

- 1) Explain with example what is Merge sort algorithm?
- 2) Finding Maximum and Minimum element algorithm explain with example
- 3) Explain what is Quick sort algorithm?
- 4) Explain with example what is Selection sort algorithm?

Assignment No.6

- 1) What is the knapsack problem?
- 2) What skills does knapsack test?
- 3) Explain Brute-force recursive solution
- 4) Explain Optimal Merge Pattern with Example

Assignment No.7

- 1) Explain Searching Technique? Binary Search with example.
- 2) What is Backtracking? Explain 8-queen problem
- 3) Note on NP hard and NP Complete Problem
- 4) Explain Hamiltonian Cycle with Example

Assignment

Assignment No. – 01

Q.1 : Discuss the fundamentals of language processing.

Q.2 : Discuss language processor development tools.

Q.3 : Explain advanced macro facilities with examples.

Q.4 : Discuss in detail along with sketch/block diagram; the design of a macro preprocessor.

Assignment No. - 02

Q.1 : Discuss elements of assembly language programming.

Q.2 : Describe pass structure of an assembler.

Q.3 : Explain dynamic storage allocation strategies with example.

Q.4 : Explain compilation of control structures.

Assignment No. – 03

Q.1 : Describe linking for overlays.

Q.2 : Explain relocation and linking concepts.

Q.3 : Explain LEX and YACC.

Q.4 : Describe gdb and ddd.

Assignment

Unit No. 1

- 1. What is IoT? Explain animate and inanimate things/object with suitable example.
- 2. Describe any one IoT application in detail.
- 3. List the application areas of IoT.
- 4. Explain working definition of IoT.
- 5. Describe what are the basic nodal capabilities.
- 6. Express the ITU-T views about IoT definition.

Unit No. 2

- 1. Explain the structural aspects of IoT.
- 2. How the object identification can be done in IoT application.
- 3. What are the environmental and traffic characteristics in IoT.
- 4. What is Sensor? Explain different types of sensors.
- 5. Explain the key IoT Technologies.
- 6. Write a short note on (w.r.t. IoT)
 - a. Sensor Technology
 - b. Satellite Technology
 - c. RFID Technology

Unit No. 3

- 1. Explain principles of RFID.
- 2. Describe components of RFID.
- 3. Write a note on RFID middleware.
- 4. What is wireless sensor network?
- 5. Write a short note on:
 - a. Node
 - b. Connecting node
 - c. Networking node

Unit No. 4

- 1. Describe WPAN technologies with respect to IoT.
- 2. Describe the specifications of Zigbee /IEEE 802.15.4.
- 3. Explain IEEE 802.15.6 WBANS.
- 4. Write the use and applications of dedicated short range communication(DSRC).
- 5. Compare the WPAN technologies cellular & mobile network technologies for IoT/M2M.

Unit No. 5

- 1. Describe the Future governance issues in brief.
- 2. Explain an IoT infrastructure governance with respect to following points:
 - a. Robustness
 - b. Availability
 - c. Reliability
 - d. Interoperability
 - e. Access
- 3. Define:
 - a. EPCglobal
 - b. VeriSign
 - c. ICANN

Unit No. 6

- 1. Students have to perform a mini-project along with the case study on one of the following topic:
 - a. Smart Metering

- b. e-Health/Body area network
- c. City automation
- d. Automotive applications
- e. Home automation
- f. Smart cards
- g. Tracking

List of Recommended Books

- 2. Daniel Minoli, "Building the Internet of Things with IPv6 and MIPv6 The Evolving World of M2M Communications", Wiley Publications
- 3. Bernd Scholz-Reiter, Florian Michahelles, "Architecting the Internet of Things", ISBN 978-3842-19156-5, Springer.
- 4. Olivier Hersent, David Boswarthick, Omar Elloumi, "The Internet of Things" Key Applications and Protocols, ISBN 978-1-119-99435-0, Wiley Publications.

Subject: Application Development Tool – I

| UNIT | Lect. | Details of syllabus planned | | |
|------|---|--|--|--|
| No. | No. | Overview of Iove Iove buzzwerde Difference between C + & Iove | | |
| | Overview of Java, Java buzzwords, Difference between C+ | | | |
| | 2 | Data Types, Arrays, Command line Arguments. | | |
| | 3 | Classes: The Object class, Object Construction, Garbage Collection | | |
| | 4 | Nested & Inner classes, String class, Wrapper classes, Class Design Hints. | | |
| | 5 | Inheritance: Member Access, Super keyword, final keyword. | | |
| | 6 | Abstract Classes, Access Protection, Interfaces, Design Hints for | | |
| 01 | | Inheritance. | | |
| | 7 &8 | Packages: Defining a package, Searching packages and setting | | |
| | | CLASSPATH. | | |
| | 09 | Dealing with Errors, Catching Exceptions | | |
| | 10 | Tips for Using Exceptions. | | |
| | 11 | I/O: Streams, Text Input and Output. | | |
| 02 | 12 | Reading and Writing Binary data. | | |
| 02 | 13 | Multi-Threading | | |
| | 14 | What are threads?, Interrupting threads | | |
| | 15 | Thread states. | | |
| | 16 | Thread properties and synchronization. | | |
| | 17 | Introducing AWT and Swing | | |
| | 18 | Creating a Frame, Positioning a Frame | | |
| 03 | 19 | Displaying Information in a Component. | | |
| | 20 | Introduction to Layout Management, Text Input | | |
| | 21 | Choice Components, Menus. Dialog Boxes. | | |
| | 22 | Event Handling: Basics of Event Handling, Mouse Events | | |

| | 23 | The AWT Event Hierarchy. |
|----|----|--------------------------------------|
| 04 | 24 | Why Generic Programming? |
| | 25 | Definition of a Simple Generic Class |
| | 26 | Generic Methods. |
| | 27 | Collections: Collection Interfaces, |
| | 28 | Concrete Collections. |
| | 29 | The Collections Framework. |

Experiment List

| Sr. No | Experiment List | Status | CO's |
|-----------|---|----------------|-------------|
| 1 | Installation of jdk on Linux | Performing | CO2 |
| 2 | Write a program to implement vector class | Performing | CO1,CO2 |
| 3 | Write a program to implement matrix class | Performing | CO1,CO2 |
| 4 | Write program to implement given inheritance hierarchy | Performing | CO1,CO2 |
| 5 | Write a program to create linked list through interface. | Performing | CO1,CO2 |
| 6 | Create a Mymath package that will have following features. a. Trigonometric functions: (sine, cosine, tangent, secant, cosecant and cotangent) that accepts input in degrees instead of radians. b. Performs Statistical operations like min, max, count, sum and average (Understanding of package). | Performing | CO1 |
| 7 | Write a program to create applet and perform the slideshow of images using Multithreading | Performing | CO1,CO3,CO4 |
| 8 | Write a program to remove whitespaces from a text file. Name of the file is given using command line | Performin g | CO1 |
| 9 | Write a program to merge and sort data from different files in a single file. | Performig | CO1 |
| 10 | Write a program to copy text from one text box to another on a button click. (Swing and event handling). | Performing |)1,CO3 |
| 11 | rite a program to create a GUI student registration form. (Swing controls and event handling). | Performing |)1,CO3,CO4 |
| 12 | Write a program to demonstrate key and mouse event handling (Event handling). | Performing |)1,CO3 |
| 13 | Write a program to demonstrate various methods of ArrayList class. (Collections). | Performing |)1,CO2 |
| 14 | rite a program to store and retrieve, delete and update Student's information in Database. (Implementation of database connectivity in java). | Performing |)1,CO3,CO4 |
| 15 | Study of frame works like stud, spring hibernates etc. | Non-Performing |)1 |

| | 34 | Wireless markup language, WML script. |
| | 35 | Mobile communications, Wireless telephony application. |
| | 36 | Push architecture, Push/Pull services. |

Assignment

Assignment No. - 01

- Q. 1 Differentiate between wired and wireless communication.
- Q. 2 Draw and explain simplified reference model for mobile and wireless communication.
- Q. 3 What are the advantages and disadvantages of cellular systems using small cells.
- Q. 4 What is mean by signal propagation? Explain different effects on it.

Assignment No. - 02

- Q. 1 Draw and explain GSM system architecture.
- Q. 2 What are the reasons of handover? Explain different possible handover scenarios.
- Q. 3 Explain IEEE 802.11 protocol architecture.
- Q. 4 Describe the format of an IEEE 802.11 PHY frame using FHSS.

Assignment No. - 03

- Q. 1 List the entities of Mobile IP and describe data transfer from a mobile node to a fied node and vice versa.
- Q. 2 What is the basic purpose of DHCP? Name the entities of DHCP.
- Q. 3 Explain wireless datagram protocol.
- Q. 4 Which are the features of wireless markup language?

List of Recommended Books

Text books:-

1. Mobile Communications – Jochen Schiller – 2nd edition, Publication – Pearson Education.

Reference books:-

- 1.Introduction to Wireless Telecommunication Systems and Networks Gray J. Mulett, Publication Cengage Learning (India Edition).
- 2.Mobile Computing Ashok K. Talukdar&Roopa R. Yavagal, Publication TATA McGRAW HILL

Subject: Advanced Database Systems

| Chapter No | No. of Lecture | Topics to be covered in each Lecture |
|---------------|---|---|
| | 1 | Overview, |
| | 2 | Catalog Information for cost estimation, |
| | 3 | Measures of Query cost Selection operation |
| 1 | 4 | Sorting Join operation |
| | 5 | Selection size estimation, Join size estimation. |
| | | Transformation of relational |
| | 6 | expression. |
| | 7 | Structured data types Motivating example, |
| | 8 | Structured data types, Operations on structured data, |
| 2 | 9 | Encapsulation and ADTs, Inheritance, Objects, OIDS and Reference types, |
| | 10 | Database design for an ORDBMS, Object identity, Nested collections, |
| | 11 | Storage and access methods |
| | 12 | Architectures for parallel databases, |
| | 13 | Parallel query evaluation, Parallelizing individual operations, |
| | 14 | Parallel query optimization, Introduction to Distributed DBMS, |
| 3 | Distributed DBMS architectures, Storing data in distributed DBMS, | |
| | 16 | Distributed catalog management, |
| | 17 | Distributed query processing, |
| | 18 | Updating distributed data, Distributed concurrency control, |
| | 19 | Distributed recovery. |
| | 20 | Introduction to decision support, Data Warehousing, |
| | 21 | OLAP, Implementation Techniques for OLAP, |
| | 22 | Views and decision support. |
| 4 | 23 | View materialization, Maintaining materialized views. |
| T | 24 | Mining for rules |
| | 25 | Introduction, Counting Co-occurrences |
| | 26 | Mining for rules, Tree structured rules, |
| | 27 | Clustering: K-means algorithm and BIRCH algorithm, |
| 5 | 28 | Similarity search over sequences, |
| | 29 | Introduction to Information Retrieval: Vector space model |
| | 30 | TF/IDF weighting of terms, indexing for text search, |
| | 31 | Web Mining: Web content mining- Crawlers, |
| | 32 | Web structure mining- Page Rank and |
| | 1 32 | 6 - 10 |

| 6 | 33 | Transaction-processing monitors, |
|---|----|---|
| | 34 | transactional workflows, |
| | 35 | main-memory databases, real-time transaction systems, |
| | 36 | long-duration transactions |

Experiment List

| Expt No. | Title of Experiment | Nature of Experiment | СО |
|-------------|---|----------------------|-----|
| 1 | Implement merge join. | Performing | CO1 |
| 2 | Implement hash join. | Performing | CO1 |
| 3 | Create structured data types of ORDBMS and perform operations- create table using structured data types, insert data and solve queries. | Performing | CO3 |
| 4 | Implement parallel joins, sorting and aggregates. | Performing | CO2 |
| 5 | Implement vertical and horizontal fragmentation in distributed DBMS. | Performing | CO3 |
| 6 | Implement semi join in distributed DBMS. | Performing | CO4 |
| 7 | Implement two phase commit in distributed DBMS | Performing | CO5 |
| 8 | Implementation of concurrency control in distributed DBMS. | Performing | CO2 |
| 9 | Implementation of OLAP queries | Performing | CO4 |
| 10 | Installation & Configuration - Case Study of IBM-DB2 database/MS-SQL server/Oracle/ My SQL or any open source RDBMs | Performing | CO3 |

Assignment

- 1. What are the issues of traditional file-based systems that make DBMS a superior alternative?
- 2. What are some examples of open source and commercial Relational DBMSs?
- 3. What is a database model? and name a few common database models?
- 4. How do you choose a database model?
- 5. What is ACID properties of transactions?
- 6. What are OLTP and OLAP and their differences?
- 7. What is Data Warehousing?
- 8. What are database locks and its types?
- 9. What is "deadlock"?
- 10. What is B+ tree and its advantages and disadvantages?
- 11. What is the difference between clustered and non-clustered indexes?
- 12. What are different JOIN algorithms?

Internal assessment process of project work:

Weightages of project work internal assessment (Throughout Academic Year)

| Review | Activity | Activity Marks | Assessment | Review Assessment Weightage | CO Covered |
|--------|---|-------------------|------------------|-----------------------------------|---------------|
| A1 | Submission of Project topics with name of group members, Submission of synopsis with guide's signature | 4 | Rubric PR1 | 20% (20) | CO1 |
| A2 | Presentation-I : Synopsis Presentation in front of DRC | 4 | Rubric PR2 & PR6 | 10% (10) & 5% (05) | CO2 & CO5 |
| A3 | Presentation-II: Presentation on Introduction and literature | 12 | Rubric PR3 & PR6 | 10% (10) & 5% (05) | CO2 & CO5 |

| | r | eview of the project | | | | |
|----|---|---|---------------|--------------------------|---------------------------------------|-------------------|
| A4 | | ntation-III: Presentation lethodology and future work of project. | 15 | Rubric PR4, PR5 & PR6 | 20% (20), 10% (10) & 5% (05) | CO3, CO4 & CO5 |
| A5 | | Guide Marks | 15 Rubric PR7 | | 15% (15) | CO6 |
| | | Total | | | 100% (100) | |

Rubric #PR1: Project Synopsis/Proposal Evaluation

Maximum Marks*: 20

| | | Excellent (4) | Good (3) | Average (2) | Poor (1-0) |
|---|---|---|---|---|---|
| a | Topic selection | Complete Innovative and useful for society | Somewhat innovative and useful for society | Useful for society but not innovative | Useful for limited group and not innovative |
| b | Problem Definitio n | Exceeds expectation. Identification of the social, environmental and ethical issues of the project problem | Extend expectation in some manner Problem and its implications well understood and described both in viva | Meets expectation in some manner. Problem and its implications understood but not well described or presented. | Nearly meet expectations Steps to be followed to solve the defined problem are not specified properly |
| c | Literatur e Survey P urpose and need of the project | Outstanding investigation in all aspects. Detailed and extensive explanation of the purpose and need of the project | Well-researched project, good depth and thoroughness, sensible planning of research and well referenced throughout. Collects a great deal of information and good study of the existing systems | Research is clear and structured. Appropriate coverage is present and referenced. Moderate study of the existing systems; collects some basic information | Minimal research or cursory coverage, minimal referencing, Moderate explanation of the purpose and need of the project |
| d | Justificati on of Project Objective s | All objectives of the proposed work are well defined; Steps to be followed to be followed is specified. All objectives of the proposed work are well defined; Steps to be followed is specified. | | Incomplete justification to the objectives proposed; Steps are mentioned but unclear; without justification to objectives | Limited information Only Some objectives of the proposed work are defined; |
| e | Project Schedulin g & Distributi on of | Detailed and extensive Scheduling with timelines provided for | Good Scheduling of project. Work breakdown structure properly defined. | Moderate scheduling of project. Work breakdown insufficient | Poor / No Project scheduling done. No Work breakdown structure provided. |

| Work among Team | each phase of project. Work breakdown | | |
|-----------------------|---|--|--|
| members | structure well | | |
| | defined. | | |

Rubric #PR2: First Project Evaluation

Maximum Marks*: 10

| | LEVELS OF ACHIEVEMENTS | | | | | | | | | |
|----|--|--|--|--|---|--|--|--|--|--|
| | | Excellent (10-9) | Good (8-7) | Average (6-5) | Poor (4-0) | | | | | |
| a. | Quality of Software Re quirements Specification | Outstanding clarity of thought and documentation in the development of design from the specification using and adapting models appropriately. Excellent incisive analysis leading to well defined model/requirements specification of high quality that is fully accurate. | Focus is on specification and the design follows from it, using most appropriate elements of chosen design technique. Analysis is well presented and leads to a sound well documented model/requirements specification. | Design techniques used minimally though correctly on specification. Minimal model/ requirements specification is created | Very minimal analysis. Very Minimal model/ requirements specification is created | | | | | |
| b. | Quality, appropriaten ess and accuracy of Design | Excellent design covering all aspects of the specification, fully appropriate to the project, shoeing clear thinking | Appropriate design, clear and accurate, satisfactory for the implementation of the project. | Limited design, or design not well related to specification or model | Very minimal design | | | | | |

TOTAL MARKS= (a+b)/2

Rubric #PR3: Second Project Evaluation

Maximum Marks*: 10

| LEVELS OF ACHIEVEMENTS | | | | | | | |
|------------------------|------------------|------------|---------------|------------|--|--|--|
| | Excellent (10-9) | Good (8-7) | Average (6-5) | Poor (4-0) | | | |

| а | Quality, appropriateness and accuracy of project Implem entation | Excellent use of software engineering principles and models both at higher and lower levels in implementation from design cycle. Documented use of complex features in the language /package which show quantitatively and qualitatively the improvements gained. An excellent fully operating technically outstanding project. Project fulfils functional requirements specification exactly with no limitations or failures of any type | Very well engineered solution, with evidence that the student has used proven method in transforming design into implementation. Appropriate use of facilities to make implementation more efficient or effective. Effective and efficient implementation technically with only minor limitations. Project works well with only some minor functional limitations | Appropriately engineered implementation which follows from design. Language/package facilities exploited to suggest a functional implementation. Project with some limitations, mostly technically sound. Project essentially works but with some severe functional limitations | In sufficient implementation to show competent use of any problem solving methods. Minimal implementation. Poor technical quality with little use of development skills or knowledge in evidence. Project does not work in most parts to requirements specification |
|---|--|---|---|---|---|
| b | Quality, appropriateness and accuracy of Testing | A quality piece of work giving full coverage of the solution and full program of testing/ evaluation undertaken | Extensive and well organized implementation and testing/evaluation documentation | Sufficient implementation documentation and testing/evaluation documentation | Minimal implementation documentation or testing/evaluati on documentation |

TOTAL MARKS= (a+b)/2

Rubric #PR4: Third Project Evaluation

Maximum Marks*: 20

| | MAAIHUM MAA 20 | | | | | | | | |
|---|--|--|---|---|---|--|--|--|--|
| | | LEVELS | S OF ACHIEVEMEN | NTS | | | | | |
| | | Excellent (20-16) | Good (15-11) | Average (10-6) | Poor (5-0) | | | | |
| а | Quality and accuracy of Software System/Model | Excellent design covering all aspects of the specification, fully appropriate to the project, shoeing clear thinking. An excellent fully operating technically outstanding project. Outstanding clarity of thought and | Appropriate design, clear and accurate, satisfactory for the implementation of the project. Very well engineered solution, with evidence that the student has used proven method in | Design not well related to specification or model. Language/packag e facilities exploited to suggest a functional implementation. Project with some | Very minimal design. In sufficient implementation to show competent use of any problem solving methods. Poor technical quality with little use of development skills or knowledge | | | | |

| | | documentation in the development of design from the specification using and adapting models appropriately. A quality piece of work giving full coverage of the solution and full programme of testing/ evaluation undertaken | transforming design into implementation. Effective and efficient implementation with only minor limitations. Extensive and well organized implementation and testing/evaluation documentation | limitations, mostly technically sound. Project essentially works but with some severe limitations. Sufficient implementation documentation and testing/evaluation documentation | in evidence. Project does not work in most parts to requirements specification. Minimal implementation documentation or testing/evaluation documentation |
|---|--|--|---|---|--|
| b | Demonstration of software system /Module workin g and Functioning | All defined objectives are achieved. Each module working well and properly demonstrated. All modules of project are well integrated and system working is accurate | All defined objectives are achieved. Each module working well and properly demonstrated. Integration of all modules not done and system working is not Very satisfactory | All defined objectives are achieved. Modules are working well in isolation and properly demonstrate. Modules of project are not properly integrated | Only some of the defined objectives are achieved. Modules are not in proper working form that further leads to failure of integrated system |

TOTAL MARKS= (a+b)/2

Rubric #PR5

Maximum Marks*: 10

| | LEVELS OF ACHIEVEMENTS | | | | | | | | | |
|----|---|--|---|---|---------------------------------------|--|--|--|--|--|
| | | Excellent (10-9) | Good (8-7) | Average (6-5) | Poor (4) | | | | | |
| a. | Identification of the social, environmental and ethical issues of the project problem | Identifying and solving social, environmental and ethical issues | Identifying and solving social, environmental or ethical issues | Identifying social, environmental or ethical issues | Not able to Identify any issues | | | | | |

Rubric #PR6 Individual Contribution Evaluation

Maximum Marks*: 5

| LEVELS OF ACHIEVEMENTS | | | | | | | |
|------------------------|---------------|----------|-------------|------------|--|--|--|
| | Excellent (5) | Good (4) | Average (3) | Poor (2-0) | | | |

| a | Individual Presentation | Excellently planned and executed presentation and demo leaving the listeners in no doubt of the value of the product. Contents of presentations are appropriate and well delivered. Proper eye contact with audience and clear voice with good spoken language | Quality presentation and demo. Clear and concise description leaving listeners with sound understanding of project and its problems. Contents of presentations are appropriate and well delivered. Clear voice with good spoken language but less eye contact with audience | Timed and prepared presentation, demo with student describing what has been learnt. Contents of presentations are appropriate but not well delivered. Eye contact with only few people and unclear voice | No presentation or no demo or student unable to articulate project development. Contents of presentations are not appropriate and not well delivered. Poor eye contact with audience and unclear voice |
|---|--|--|---|--|--|
| b | Individual Contribution | Excellent Contribution showing his/her dependency in project | Good contribution as reflected in overall work | Some contribution as reflected in overall work. | No Contribution |
| c | To observe the completion of work referring to the original set plan | Ahead of the proposed plan | In pace with the plan | Delayed but can cope up with the lag at their own | Interventional help is needed |

TOTAL MARKS= (a+b+c)/3

Rubric #PR7: Project Report Evaluation

Maximum Marks*: 15

| | | | | - | viaxiiiuiii iviai ks . 15 | | | | | |
|---|--|---|---|--|---|--|--|--|--|--|
| | LEVELS OF ACHIEVEMENTS | | | | | | | | | |
| | | Excellent (15- 12) | Good (11-8) | Average (7-4) | Poor (4-0) | | | | | |
| а | Style, structure and form and the perceived clarity, 'readability of report | Outstanding, comprehensive and clear report, Fully referenced | Effective report using academic language accurately referenced. | Acceptable report structure, some referencing, no missing parts, clarity of language | Report is unbalanced or unclear, or it is difficult to follow ideas. Major sections missing, or no referencing | | | | | |

| b | Effectiveness of the project report | Accurately referenced, very high standard of presentation aimed at the right level throughout. Full y referenced. Complete explanation of the key concepts and strong description of the technical requirements of the project | Effective technical /business report fully structured, accurately referenced. Complete explanation of the key concepts but in-sufficient description of the technical requirements of the project | Adequate report presentation references included. Incomplete explanation of the key concepts and in-sufficient description of the technical requirements of the project | Referencing is poor or inconsistent, or lack of illustrative content. Report is unreadable as an English report Inappropriate explanation of the key concepts and poor description of the technical requirements of the project |
|---|---|--|---|---|---|
| c | Results, Conclusion a nd Discussio n | Results are presented in very appropriate manner. Project work is well summarized and concluded. Future extensions in the project are well specified | Results are presented in good manner. Project work summary and conclusion not very appropriate. Future extensions in the project are specified | Results presented are not much satisfactory. Project work summary and conclusion not very appropriate. Future extensions in the project are not specified | Results are not presented properly. Project work is not summarized and concluded. Future extensions in the project are not specified |
